

## 5 Reasons We Love The Modern Honolulu

---

1. Its location is practically impossible to beat
2. It's a destination for discerning diners
- 3. It has a sleek new spa with a signature Blending Bar**
4. Guests who appreciate art will feel at home
5. It's a sought-after spot for nightlife

Shedding everyday stress is effortless at The Modern's new Lather Spa, a serene sanctuary bathed in soft white and soothing scents of coconut and lemongrass lingering in the air. Once you're wrapped in a silky-soft robe and awaiting your treatment (the lomi lomi massage is downright exquisite), help yourself to a glass of peach green tea and give some of Lather's product testers a try. The brand's body creams, cleansers and oils contain all-natural ingredients — from chia seeds and passion fruit to sweet almond and Swiss apple — that'll leave your skin radiant and your spirit revived. Feeling relaxed? Don't drift off just yet: Lather is home to a signature Blending Bar, where an aesthetician will assist you in creating a customized blend of delightfully scented essential oils (think blood orange, lime, yuzu and lavender) to be used in your service and, if you wish, mixed with body lotion to take back home.
